Subject: Instructions for our new website.

Dear Customer,

we report below some useful data, with the aim of using in the best way the resources available on our website:

- The actual availability of the products, for an immediate delivery, is the lowest number in a period of 90 days (which is the average lead time for the goods). For example as at 09/05/2015 the time limit of 90 days is 09/08/2015:

cod. Ades: FPS1M00ENK9080 – cod. fornitore R463N41000N2M

CAP *10x18.5x26.5**F06** 396 R46.00.N2 1/300X2 **p22.5**

Disponibilita' al 09/05/2015: 11880

Disponibilita' al 20/06/2015: 6732

Disponibilita' al 05/07/2015: 2732 [actual_availability_for_an_immediate_delivery](#)

Disponibilita' al 05/07/2015: 14612

Disponibilita' al 12/08/2015: 26492 [time_limit_of_90_days](#)

Disponibilita' al 05/09/2015: 38372;

- Usually, the description of the products, refers to the dimensions in the first part, and to the electric characteristic in the second part. The number between them is the package, in this example 396 pcs;
- The products search on the Home page is possible with Ades P/N and/or manufacturer P/N (or segments of them). You can find the products also using a part of the description, but in this case only Ades description can be utilized. For a better search go to the products page and use Ades P/N and/or manufacturer P/N;
- The reserved area allows you to view your price list, to download it in .xls format, to search the products also using your P/N. If your P/N has multiple alternatives it will be identified by a * for the alternatives you have approved, and by a # for the alternatives you have to approve time after time;
- You are kindly requested to communicate any advice which allows us to improve the available information;

Longarone, 11/05/2015

Antonio Savi
